Concerning

(Name and Registration Number of Company)

Name: Electron Technologies (Pty) Ltd

Registration No: 1973/006348/07

The above named company commenced business rescue proceedings on 27 September 2019

Because the business rescue proceedings have not concluded within three months, the appointed business rescue practitioner provides the attached report in terms of section 132 (3).

Name and Title of person signing on behalf of the Practitioner:

Basil Anthony Holford - Business Rescue Practitioner

Authorised Signature

ELECTRON TECHNOLOGIES (PTY) LTD
THIRTY-FIFTH STATUS REPORT FOR DECEMBER 2022

Reg. No. 1973/006348/07

This report is prepared in terms of Sect 132(3) of the Companies Act 71 Of 2008

BACKGROUND

Electron Technologies (Pty) Ltd was placed in business rescue in September 2019 due to a number of its major civil engineering clients being placed in business rescue, with little or no expectation of recovery of amounts owed by those companies to Electron.

The business rescue plan that was prepared and subsequently accepted by the creditors allowed for the repayment of creditors from its trading operations and any recoveries from the civil engineering companies in business rescue.

BUSINESS RESCUE PROPOSALS

There have been various enquiries from creditors as to when the business rescue will terminate and when further payments will be made by the company. To date approximately one third of the amount owing to creditors has been repaid.

Amongst the proposals made in the Business rescue Plan were the following: -

1. The moratorium on pre-business rescue creditors will remain in place until all such creditors have been paid in full and the business rescue process has been substantially fulfilled. The time to complete this is dependent on the completion of all contracts, sub-contracts and projects under way as well as the positive cash flow generation resulting from these contracts and all new contracts entered into. The anticipated completion dates are, in many cases, dependent upon other sub-contractors fulfilling their obligations according to the time frames set by the contractors.
2. The company will only be released from its debts once payment has been made in full and no debt is proposed to be converted into equity
3. All agreements are for normal services provided to the company.
4. The plan does not include any proposal for the sale of any property or assets of the company to pay for creditors' claims.

The abovementioned plan was approved at the second meeting of creditors and is therefore binding on the company, its creditors and shareholder in terms of Sect 152(4) of the Companies Act

OPERATIONS

Further correspondence has been addressed to SARS regarding the various tax issues of the company but without response so far. Sars continue to remain silent on this matter and I can only assume that they are unwilling to reverse their illegal decisions regarding their lack of preference in business rescue and await Electron taking legal action against them. Electron is unwilling to do so as it is not prepared to spend funds on litigation at the expense of the creditors. We have therefore, withheld payment to them of the latest dividend.

A further dividend will be paid to creditors at the beginning of January and a schedule of the payment is attached.

The company remains positive that it will be able to fulfil its undertakings in the approved business rescue plan.
