ELECTRON TECHNOLOGIES (PTY) LTD
FORTY-FIRST STATUS REPORT FOR June 2023

Reg. No. 1973/006348/07

This report is prepared in terms of Sect 132(3) of the Companies Act 71 Of 2008

BACKGROUND

Electron Technologies (Pty) Ltd was placed in business rescue in September 2019 due to a number of its major civil engineering clients being placed in business rescue, with little or no expectation of recovery of amounts owed by those companies to Electron.

The business rescue plan that was prepared and subsequently accepted by the creditors allowed for the repayment of creditors from its trading operations and any recoveries from the civil engineering companies in business rescue.

BUSINESS RESCUE PROGRESS

As previously indicated, the cape town premises have been placed on the market for sale. An offer was received which I have rejected as it was not in line with expectations. The property will continue to be marketed with a view to finding a suitable buyer

OPERATIONS

The market is improving and both the Johannesburg office and the Durban office are busy. It is hoped that the further payment to ring-fenced creditors will be made before the end of the calendar year if operations continue as they currently are.
