ELECTRON TECHNOLOGIES (PTY) LTD
FORTY-FOURTH STATUS REPORT FOR SEPTEMBER 2023

Reg. No. 1973/006348/07

This report is prepared in terms of Sect 132(3) of the Companies Act 71 Of 2008

BACKGROUND

Electron Technologies (Pty) Ltd was placed in business rescue in September 2019 due to a number of its major civil engineering clients being placed in business rescue, with little or no expectation of recovery of amounts owed by those companies to Electron.

The business rescue plan that was prepared and subsequently accepted by the creditors allowed for the repayment of creditors from its trading operations and any recoveries from the civil engineering companies in business rescue.

BUSINESS RESCUE PROGRESS

The marketing of the Cape Town property continued and at the end of September a further offer was received which was fifty percent more than that received in August. The offer was accepted and the property is in the process of being transferred. The proceeds of this sale together with certain surplus funds will be utilised to make a further payment to creditors. It is hoped that the transfer will be completed in the first week of December and thereafter payment will be made.

OPERATIONS

The market continues and there are indications of further potential contracts coming up in the new year. In the meantime we are proceeding with legal action against a former contractor who owes the company approximately R3.5 million.

The cash flow is being carefully managed to ensure that sufficient funds are available for financing of new contracts
