appointed business rescue practitioner provides the attached report in terms of section
132 (3).

Name and Title of person signing on behalf of the Practitioner:

Basil Anthony Holford - Business Rescue Practitioner

Authorised Signature:

Basil Holford

ELECTRON TECHNOLOGIES (PTY) LTD
SIXTY-EIGHTH STATUS REPORT FOR OCTOBER 2025

Reg. No. 1973/006348/07

This report is prepared in terms of Sect 132(3) of the Companies Act 71 Of 2008

BACKGROUND

Electron Technologies (Pty) Ltd was placed in business rescue in September 2019 due to a number of its major civil engineering clients being placed in business rescue, with little or no expectation of recovery of amounts owed by those companies to Electron.

The business rescue plan that was prepared and subsequently accepted by the creditors allowed for the repayment of creditors from its trading operations and any recoveries from the civil engineering companies in business rescue.

BUSINESS RESCUE PROGRESS

The matter with SARS, previously reported on, is ongoing. Despite numerous letters and emails addressed to them, their stock answer is that it has been referred to their legal department. No response has been received from them despite a further case in the High Court having ruled against them for a similar action

With regard to the amount owed by the client, further action is being taken to force payment. His attorney is currently holding approximately R1,4 million which should have been released but there has been no response from the attorney either.

OPERATIONS

The company's post commencement business activities are continuing to improve and it is anticipated that this will continue. It is anticipated that a further dividend will be paid to creditors before the end of the calendar year.
